

Information List Foie Gras Industry (Hungary/France)

The following list shows the most important companies in the Hungarian and French foie gras industries. Companies can only be removed from this list if they prove that they have stopped all foie gras production, fattening and processing and have announced that they will not restart such activities.

This list is intended to provide information to consumers, wholesalers and retailers. The listed companies are responsible for the suffering of animals in the Hungarian foie gras industry. Although sections of these companies are not involved in foie gras production (and consequently not all Veterinary Control Numbers), this does not preclude inclusion on the list.

Hungary

EC	Company	Information
HU 110	Hungerit Zrt. Baromfi vágóhid és feldolgozó	Important foie gras manufacturer and slaughterhouse for geese and ducks in Hungary. Non-labelled (marked as meat from foie gras production) foie gras meat by Hungerit was delivered to retailers in Germany and Austria. Hungerit is one of the most important breeders of foie gras goose breeds in Hungary. All German and Austrian retailers and many wholesalers stopped selling meat from Hungerit. Client: Otto Franck Import KG Augsburg. The company "Prima Enten GmbH" (HU 320) sells and processes duck and is supplied by Hungerit (HU 110).
